FOES OF LEAGUE MAY BE TESTED IN WILSON PLAN

Time Has Arrived to Prove Sincerity of Men Opposing the World Covenant, on American Grounds, the Former President Believes

Rallying Call May be Sounded, Urging Friends of the Nations' Body to New Effort to Vindicate Principles as Laid Down

(By LAWRENCE MARTIN)

WASHINGTON—(By United Press)—Woodrow Wilson may soon sound a rallying call, urging friends of the league of nations to a new effort to vindicate the principles the league embodies. Wilson, according to a recent caller, believes the time has arrived to test the sincerity of those who said they opposed the League on "American" grounds. The former president was quoted as having said he did not believe senators could save their faces if they were now called on to vote on the question of American entrance into the League, under reservations safeguarding all American rights.

Wilson pointed out to his caller that Great Britain, France, Italy and all the other leading league members are willing to agree to virtually any conditions proposed by the United States in return for its entrance into the league.

REACTION SEEN

Wilson made no direct comment on the Harding association of nations plan. He has expressed the view, however, that "recent events" have shown unmistakably that the United States is headed towards membership in a league of nations. These events include the arms limitation conference, concerning which Wilson has maintained absolute silence so far as the public is concerned.

His close friends have said his views will be a severe blow to the enemies of the league who wanted the conference because they foresaw a strong political reaction against themselves unless they created some agency that would achieve the ideals expressed in the league—world disarmament and taxation.

FILIPINOS UNFIT FOR SELF RULE

Not Ready to Take Over Government, Wood Says

WASHINGTON—(By Associated Press)—Despite extraordinary progress in the past 23 years, the Filipino people have a long road to travel before they will be ready to take over their own government, according to the report made by Major General Leonard Wood, governor general of the islands, and W. Cameron Forbes, former governor general. The complete report was issued today by the war department, as a supplement to the recent publication of specific recommendations made by the two investigators.

Lead of further national improvement is pointed out by the report, which declares, however, that the administrative mistakes of the Filipinos have not been sufficient to counterbalance the steadily rising progress parameter.

"Generally speaking," the report says, "administrative departments of the government are too heavy in personnel and enmeshed in red tape. There is a vast amount of paper work. The methods of the administration are purely autocratic. There is a lack of supervision and personal contact."

CHILD'S MURDER, SUICIDE OF WOMAN INVESTIGATED

CHICAGO—An inquest into the murder of Margaret Coughlin, aged three whose badly mutilated body was found yesterday in the home of Mrs. Rachel Penses and the inquest into the suicide of Mrs. Penses, who cut her throat as people were battering down the door, were continued today until December 15 to permit further investigation. Joseph Penses, husband of the woman, and his two daughters, Dolly, 17, and Josephine, 9, were released from custody after they had testified. They knew nothing about the case.

The only other witness heard were policemen, doctors and Edward Coughlin, a park policeman and father of the murdered child. The Coughlins lived across the street from the Penses home and the boy, Margaret, was the playmate of Josephine Penses.

DESTROYER AGROUND

SAN FRANCISCO—Advices were received here early today, saying that the destroyer De Long, with more than seventy men aboard, was aground quietly where she grounded yesterday on the beach a mile and a half south of Half Moon Bay, California. Efforts will be started today, it was said, to reach the craft.

GERMANY SEEKS LOAN

LONDON—Former German Minister of Reconstruction Rathenau is negotiating with Sir Robert Horne, Chancellor of the Exchequer, and officials of the Bank of England for a loan of \$50,000,000 pounds sterling to Germany. It was learned that Herr Rathenau would be given a definite answer today, which official said probably would be negative.

AMERICANS ARE OPTIMISTIC

Chinese Demands Again Taken Up by Committee

WASHINGTON—(By Associated Press)—Hope for an early settlement of the dispute arising from Japan's request for an increase from sixty to seventy per cent in the capital ship tonnage allotted her under the American limitation plan, centered today in the efforts of Great Britain to bring the Japanese views into harmony with those of the United States.

While precisely in what manner Great Britain has undertaken to use her influence in solving the naval ratio problem was not known today, it was indicated that, as an ally of Japan and having, on the other hand, accepted in principle the basic "5-5-3" ratio of the American proposal, she had found a double interest in the ultimate success of the negotiations.

DELEGATES WAITING

The situation was expected to remain at a status quo today while the Japanese delegates, in the light of this new development, communicated further with the Japanese cabinet as well as the diplomatic advisory council. Meanwhile, principals on both sides of the controversy refused to view the situation as a deadlock today, the American delegates even declining to recognize Japan's request for the increased ratio as a formal proposal at this stage, although it is known to have been presented by Baron Kato last Tuesday to Secretary Hughes and Arthur J. Balfour, head of the British delegation. The American delegates remained confident that the Japanese request would be withdrawn before reaching the status of what they would regard as a formal proposal.

FAIR EAST SITUATION

With the naval situation marking time, the Far Eastern committee of the conference resumed its sessions today after suspending yesterday to permit organizations of the conference of delegations from Japan and China on the Shantung question. That committee, which held only a brief session yesterday, was meeting again today while the question pending before the Far Eastern committee was China's request for withdrawal of foreign troops stationed on her soil without treaty sanction.

General assent in principle to that request was given at the last meeting, but the specific problems involved, including that of railroad protection in the Japanese leaseholds, remained to be discussed.

"You can learn a powerful lot in 90 years, so's when you get married, you know what you're doin'."

"I started marryin' when I was 23 and now I'm 90 and still at it. I'm sorta getting used to it by now. When you haven't had more than one wife you don't know anything."

Mary Jane, his 26-year-old wife, confirmed the fact that Kennedy had learned a lot. She said it was love at first sight when they met.

"He met me and married me in an hour. He said he wanted someone to do housework for him, and I said I worked for \$2 a week and he said he would give me \$3. Then he asked me if I wouldn't marry him, I said all right, so we were married."

Kennedy and his bride planned to leave here today for Dayton.

GERMANS WINNING

Gain Success Against America In Making Toys

BY ALBERT APPLE

CHICAGO—(Special)—The American toy industry, which was built up during the war, is in a life-and-death struggle with German-made toys.

German toy salesmen say they are regaining their lost trade with America so rapidly that American kiddies this Christmas will get about 70 per cent as many German toys as before the war.

The figure is exaggerated, according to American toy makers. They admit, tho, that German competition is their big problem.

German toys are underselling the American product 30 to 50 per cent.

Japan has made very little progress in building up business in the American toy market, largely because her toys do not withstand rough usage such as they get from husky American children.

19 PRISONERS FREED FROM PENITENTIARY

COLUMBUS—Nineteen prisoners at the Ohio penitentiary were given their freedom by paroles today, following the action of the recent meetings of the board of pardons and paroles.

Figures compiled by Deputy Warden Woodard show 139 prisoners were admitted to the institution during the month of November and discharges totaling 44. Total penitentiary population stood at 2,591 today.

After nearly six years of freedom Frank Meyer, Miami-co., was returned to prison today by Field Officer Klinger, to complete his one to seven years' sentence on a larceny charge.

LLOYD GEORGE WILL ATTEND CONFERENCE

HYPNOTISM SAVING GIRL

ASKS INJUNCTION AGAINST MAYOR

Also Seeks to Enjoin Civil Servers From Acting

DEPOSED POLICE HEAD COUP

Board to Probe Charges on December 9

Members of a special trial board which will hear charges against O. J. Roush were selected at a meeting of the civil service commission late Friday.

They are: Benjamin F. Welty, former congressman; A. J. Morris, clerk of election board and M. L. Mayer, secretary of the Allen-Cox Fair board.

The trial will be heard on December 9, commencing at 9 a.m. Place of trial will probably be the council chamber in the city hall.

Application for a temporary restraining order, which if granted by the court, is expected to automatically restore O. J. Roush to duty as chief of police, was filed in common pleas court Friday noon by counsel of the suspended police head.

The petition makes Mayor Burkhardt and the three members of the municipal civil service commission defendants in the action and asks the court to restrain and enjoin them from preventing the plaintiff from performing his duties and occupying his office as chief of police.

A second order temporarily restraining members of the civil service commission from proceeding to try and determine the purporting issue of whether or not Roush shall hold and occupy the office, is also asked.

CIVIL SERVERS DEFENDANTS

Members of the commission made defendants are Francis W. Durbin, Fred W. Zeits and Frank H. Downing.

Summons for the defendants were placed in the hands of Sheriff Charles Baxter for service Friday noon.

The order sought had not been issued by Judge Fred C. Becker at noon, but it was indicated that the court would act soon. An early date for hearing the case will probably be fixed.

A restraining order will automatically restore Roush to duty over the heads of Mayor Burkhardt and the commission and effectively tie their hands for some time, counsel for Roush asserts.

A copy of the charges preferred by Mayor Burkhardt was attached to the petition and marked "Exhibit A."

Roush in his petition recites that he was suspended on the basis of charges contained in "Exhibit A"; that the mayor, Frank A. Burkhardt, has forbidden, prohibited and prevented him from performing his duties and attempted to oust him from office; that since November 22, Mayor Burkhardt has interfered and prevented the plaintiff from performing his duty, altho at all times he has been able and willing to do so.

HEARING NOT ACCORDED

That on November 23 a copy of the charges was filed with the civil service commission and that no time was given within which to file an explanation of allegations.

It is also alleged that no hearing was accorded the plaintiff, before or by the civil service commission.

The petition also recites that the defendants threaten to and will interfere with the plaintiff in his duty and that unless restrained by the court the defendant commission will interfere with the plaintiff in his duty.

All this is alleged to be without authority of law. It is represented that irreparable injury and damage to the plaintiff will result.

For these reasons a temporary injunction is sought and it is asked that the court afford the plaintiff relief and protection.

CIVIL SERVERS SURPRISED

Members of the civil service commission had not up to noon been served with summons, notifying them of the application for a restraining order.

They were swept off their feet by the latest coup sprung by Roush's counsel. All expressed complete surprise at the action and offered no comment on the matter.

The commission met Friday morning in the office of F. H. Downing, in the Holmes block, to fix a date for the Roush trial and to select a non-partisan and neutral board to hear the appeal filed Thursday.

WILSON FOUNDATION COMMITTEE MEETS

NEW YORK—Every section of the country was represented today at the first general meeting of the national committee for the Woodrow Wilson Foundation, at which the method of selecting the jury to grant Woodrow Wilson awards for distinguished public service is to be decided.

Franklin D. Roosevelt, national chairman, in announcing the program, said the committee expected to complete its deliberations today, but would extend the meeting if business before the executive committee were not completed.

TOO MANY HUSBANDS IS CHARGE AGAINST WOMAN

CHICAGO—At least twelve husbands who served in the army or navy are credited to Mrs. Helen Drexler of Waukegan, Ills., the champion collector of government allotment checks, according to federal authorities who had her in custody today. She is alleged to have married husbands from many different parts of the country, divorced none and received approximately \$400 a month from the government for the past three years.

STATE TO CLOSE FRIDAY IN ALLIE BEELER CASE

Hearing of testimony in the case of Allie Beeler charged with misappropriation of \$3,000 Shawnee school funds was resumed in common pleas court Friday.

James Loyer, who was placed on the custom of the board to give Beeler blank warrants signed by the president, for convenience in paying bills.

The state expected to close its case late Friday.

NAVAL PLAN MAY BE MODIFIED

Shipbuilding on Restricted Basis Now Winning Favor

VESSEL A YEAR SUGGESTED

Impression Among American Officials Growing

WASHINGTON — (By Associated Press) — An impression is growing in American naval circles that it may prove expedient to modify the ten year naval holiday proposal of the American plan sufficiently to permit building of capital ships to continue during the holiday on very restricted basis. There is evidence that both the British and Japanese feel the necessity of such a modification, it is said, and American officers to some extent share that view.

The British representatives suggested a "ship a year" program in an informal way but later it was stated they had no intention of proposing that each nation should lay down a new capital ship each year. It has occurred to some American naval officers that a more logical modification would be to provide that each nation should have one capital ship under construction throughout the ten year period. This would mean for Great Britain, the United States and Japan the production of three new capital ships each during the holiday to take the places of ships which would pass the twenty year period of use during that time. Each of the retained fleets under the American plan includes vessels which will become twenty years old before the end of the naval holiday.

FAR EAST PROBLEM

WASHINGTON — (By Associated Press) — The delicate question of foreign leases in China came before the Far Eastern committee of the armament conference at today's meeting. The question is generally regarded as the most difficult of all the Chinese questions yet touched upon and offers what are regarded as well nigh unsurmountable obstacles to a settlement unless Japan will surrender Dalmay-Port Arthur, which would mean the giving up of the most impregnable position Japan has upon the Asiatic mainland.

The only other leases of a similar sort are those of Great Britain to Wei-Hai-Wei opposite Port Arthur, and of France to Kwang-Chow in southern China opposite the islands of Hainan and along the line of communications to the French colony of Indo-China. The impression in conference circles is that both the British and the French would give up their concessions if the Japanese agreed to give up Dalmay-Port Arthur, but it is felt that there is little likelihood of Japan doing so. The conference may seek a formula to defer a decision by accepting the principles of surrender, but postponing until conditions in Asia are more settled.

It is understood that China does not ask for an immediate evacuation of these leases but only their demilitarization. The Japanese, it is said, hold to the idea that as long as the Bolsheviks are so powerful in Northern Asia it would be unwise for Japan to give up the powerful base at Port Arthur.

SPECIAL SESSION NOT EXPECTED

Tax Committee Doesn't Think Davis Will Call Legislature

COLUMBUS.—(By United Press) — Little hope for an early agreement on the tax reform proposed was recommended to Governor Davis for submission to a possible special session of the legislature, was held by members of the joint special state and house committee when they began their first session here today.

"When we were unable to agree on anything in four months, we can't be expected to reach an agreement on this issue now in four hours," said Frank E. Whitemore, Akron majority leader of the senate committee.

He said, however, he was optimistic as to the outcome for an agreement at subsequent meetings.

Members of both delegations were frank in expressing doubt as to whether Governor Davis will consent to call the legislature back in special session, regardless of what the committee does.

The senate is composed of:

Senators Whitemore, Akron, chair-

man; Endley, of Mansfield; Culbert

BISHOP APPOINTED

ROME.—The Right Rev. Monsignor Joseph G. Platen, vicar general of the diocese of Marquette, Michigan, was today appointed bishop of Superior, Wisconsin, by Pope Benedict.

TO SPEAK AT CHRIST CHURCH

Bishop Harris.

Bishop Harris, former rector of St. Mark's Episcopal church, Toledo and now head of the bishopric of northern Michigan, is to be the principal speaker in a series of preaching services, to be held at Christ Episcopal church for eight days, starting Sunday morning.

Rev. Kirk B. O'Farrell, pastor of Christ Episcopal church, and for two and a half years assistant at Toledo under Bishop Harris is fortunate in securing the services of so able an orator. Bishop Harris is a graduate of Kenyon and Bexley Theological Seminary.

Services will be conducted every evening at 7:30 except Saturday. The general public is invited to attend.

THRU CARS FROM LIMA TO DAYTON

Western Ohio to Inaugurate Service on December 5

Important changes in passenger schedules on the Western Ohio traction lines, to become effective December 5, were announced by officials of the line Friday.

After that date all southbound cars will leave Lima at 20 minutes after the hour. Instead of 15 minutes after, as at present. Two exceptions to this are the cars leaving at 3:15 and 6:30 p. m., both of which will adhere to their present schedules.

The 11:30 p. m. northbound car will be removed from the schedule. The last car to leave for the north will be at 10:25 p. m. The last car for the south will leave at 11 p. m.

A new limited service between Lima and Dayton will be inaugurated with a fast car leaving here at 4:40 p. m. and arriving at Dayton at 7:30 p. m., making stops only at the more important stations. A limited car will be operated northbound leaving Lima at 3:50 p. m., after making connections at Piqua with the Dayton car. Only station stops will be made by this car, it was stated Friday. A limited car leaving Dayton at 7 a. m. is scheduled to arrive in Lima at 9:50 a. m., providing fast service between that city and Lima early in the morning.

The Cleveland Limited will leave Lima at 5:15 a. m. instead of at 5:05, as at present. The scheduled arriving time in Cleveland will be the same.

LEGION RALLIES FORCES TO EDUCATION WEEK

INDIANAPOLIS.—American men and women were called upon today by Hartford Macnider, commander of the American Legion, to join that organization and "do battle with the forces of ignorance so that the means will be provided to set free the millions from the bonds of illiteracy." The statement was issued in regard to American Education week, December 4 to 10.

Commander Macnider said the legion and the National Education Association have joined hands to impress upon the country the unpreparedness of our youth for the problems of peace. He said every effort should be expended to make every tongue in the United States speak the English language and all people know something of our common history and form of government.

LAWYER TESTIFIES IN LOVETT MURDER CASE

COLUMBIA CITY, Ind.—Allen S. Widaman, a Warsaw attorney, went on the witness stand today in furtherance of the state's efforts to prove that Fred Decker conspired with other members of his family to kill Leroy Lovett last March and collect \$25,000 insurance.

Mr. Widaman told of Fred Decker's purchase of a farm for approximately \$8,000 and the method of payment. The state is attempting to show that the defendant conspired with a brother, Virgil Decker, to kill Lovett, collect the insurance and in this manner meet the notes due to the farm.

Virgil Decker and Lovett resembled each other. After Lovett was killed, members of the Decker family claimed the body as that of Virgil Decker, on whom there was \$25,000 insurance.

Virgil Decker is serving a life term for the murder of Lovett.

EGGS BOUGHT FOR 12 CENTS SELLING AT 50

WASHINGTON — Eggs bought from farmers of Michigan last spring at prices as low as 12 cents a dozen are being sold by one of the big five meat packers to the public in the same local cities at 40 to 50 cents a dozen, John G. Clark, wholesale grocer of Bad Axe, Michigan, testified today before the government commission considering the advisability of modifying the consent decree which on becoming effective next February will prohibit the big five meat packers from handling side line food products.

FORGERY CHARGED TO WOMAN

Mrs. Rummell Held in \$500 On Not Guilty Plea

Mrs. Martha Rummell, 516 E. Kirby-st, plead not guilty to obtaining money under false pretenses when arraigned before Judge Emmett J. Jackson, Friday.

Mrs. Rummell was arrested by Detective Read and Kipker, Thursday. She is alleged to have endorsed a War Risk allotment check for \$120, with the name of Lena Rummell, Wichita, Kansas. Lena Rummell is the wife of the defendant's stepson.

The alleged forgery is said to have occurred in October 1919 and the money was deposited to Mrs. Rummell's account in the Old National Bank.

Discovery of the forgery was made after the check had gone clear thru for final payment.

The woman, who has a son ten years old, also had another son in the army at the time she endorsed the check, she stated. Mrs. Rummell explains her action by saying she did not know Lena Rummell under that name and presumed the check was for her.

She was held to the grand jury under \$500 band and was taken to the county jail. Proceedings may be dropped here and the case turned over to the Federal authorities at Toledo, officials state.

SUCCESS IN SIGHT FOR RED CROSS ROLL CALL, DRIVE HEADS BELIEVE

"More than gratifying," was the statement of Mrs. J. B. Poling when queried by the Lima News Friday afternoon as to the manner in which the Red Cross Roll Call is proceeding.

"Friday was a very bad day, but we had all campagners out," said Calvin Selfridge, chairman of the campaign committee.

"There are a number of people who have not been reached by our workers. Some of these have telephoned in and we have sent for their subscriptions. If there are any more who have been missed we would like to know it. We will send immediately for their dollar," Selfridge stated.

Indications at noon Friday were that the entire quota of 10,000 new members will be reached before Saturday night. Workers have been diligent in making calls and the people of Lima have responded most generously, it was said by members of the several committees Friday.

All committee are expected to make a detailed report Saturday afternoon, Selfridge said.

DRIVER ESCAPES IN TRUCK WRECK

Stolzenbach Delivery Vehicle Crushed by Penny Flyer

Failure to see eastbound Pennsylvania mail train No. 18, running thru Lima on the westbound track after having passed another train west of the city was responsible for the total destruction of a Stolzenbach Bakery truck and slight injuries to the driver, Roy G. Godfrey, 35, of 317 N. Baxter-st, at 8:30 Friday morning.

Godfrey escaped with minor cuts and bruises about the head and face. One ear was badly lacerated. He stuck to his seat, altho the truck was splintered by the terrific impact as the fast mail train plowed into the machine. He was able to go to his home unassisted.

Godfrey was driving north on Baxter-st. A westbound freight train obscured his view westward and he drove his machine on the tracks directly in front of the flyer.

The machine was carried along, splintered and crumpled up and hurled to the south side of the Baxter-st crossing.

The mail train was traveling at a speed of 25 miles an hour over the crossover, bystanders state. No flagman is stationed at the crossing.

A Stolzenbach delivery truck was struck and totally demolished by a Pennsylvania train near Delphos about a year ago under similar circumstances.

SNOW OR RAIN IS FORECAST

MAKING good with a vengeance, the downpour of rain ordered by the weatherman from Jupiter Pluvius came Friday morning, clogging sewers and inundating low places.

On the cards for tonight is more

rain or a visitation of snow. It's a tossup in the mind of the forecaster as to which will serve, and it may be both.

At any rate, there's prospect of the snow shovel brigade assuming proportions. Dealers, anticipating are digging up the implements.

EARLY BUYING IS STIMULATED

Throngs Respond to Efforts of Lima Merchants

"The largest single Christmas shopping week in the history of Lima mercantile establishments."

So said a number of Lima business men, members of the Merchants' association and others, Friday noon.

Christmas Display Week, which started November 28 and closes Saturday night, December 3, has been one of the biggest events of its kind in the memory of downtown merchants, it was asserted.

The shop early campaign has been started with considerable pep and vigor and many outside buyers who in other years have been last to come, have already visited Lima.

The majority of Lima Christmas shoppers have in part disposed of detail purchasing, including a multitude of small articles generally destined to move from the stores at the last rush. Bulk of the heavy buying, however, remains to be done.

Lima Merchants' association heads, under whose auspices Christmas Display Week is being held, expressed gratification Friday for the manner in which the event has been put over.

"There has been thoro co-operation of all merchants in Lima and the general public has taken advantage of both bargains and the early displays of Christmas merchandise to shop early," said J. E. Morton, secretary of the association, Friday.

"It is felt that with this good start toward early shopping, there will not be the usual last minute rush to make necessary purchases; merchants and sales forces will be relieved of a large part of the accustomed strain attending such occasions; a more general feeling of the spirit of Christmas will prevail and people will be fresh for the biggest holiday in the year," Morton said.

WOMAN SPEAKER DECRIES SENSATIONAL ADVERTISING

Mrs. Beecher Moke, representing the jibes, addressed members of the Ad Club and Lima merchants' association Friday noon on the public's view of sensational advertising.

"I don't believe women, generally, are influenced by sensational advertising mediums," declared Mrs. Moke. "The use of such superlatives as 'most stupendous, greatest ever, most wonderful' are not real advertising mediums by which the woman buyer is readily deceived," she asserted.

Mrs. Moke addressed the meeting at the invitation of the Merchants' association, as a means to foster its drive to promote truthful advertising by Lima merchants.

POLICE SEEK TOLEDO GIRL, BELIEVED HERE

Lima police Friday were asked to search for Mary Howard, 16, of Toledo, who disappeared from her home there three days ago.

The girl is believed to have come to Lima. She is described as weighing 120 pounds; is five feet six inches tall, has brown hair and eyes. When she left home she was wearing a blue serge dress, brown velvet coat, with fur collar and blue velvet hat with salmon colored plumes.

ANKRON RETURNED HERE ON DESERTION CHARGE

Henry Akron, wanted on a charge of desertion of his wife and child, now living in Lima, was brought here from Pittsburgh, Thursday night by Sheriff Charles Baxter.

The alleged desertion is said to have occurred when the couple were residing at Youngstown.

MURDER PROBE TO BE DELAYED

Nierengarten Case Before January Grand Jury

GUN IS NOT PHOTOGRAPHED

Sheriff Ewing Denounces Detective W. J. King

Facts marshaled in the murder of Joseph Scott Kershaw in a box car on the B & O railroad near Crider'sville, November 29, will not be probed in Auglaize co until the new grand jury is summoned in January. It was asserted by officials at Wapakoneta Friday, unless circumstances now unforeseen develop, which necessitate earlier action.

Prosecuting Attorney Carl Timmermeister and Sheriff Bob Ewing said no action has been taken in re-calling the October grand jury.

So far as Auglaize co officers are concerned, Sheriff Ewing said, the Kershaw murder case is at a virtual standstill. Investigation of additional statements made by Harold Nierengarten, held as the confessed slayer of Kershaw, involving "Whitney Williams, a Toledo man, as the actual murderer, proves to be his satisfaction that the story is of whole cloth, Ewing said.

GIN NOT PHOTOGRAPHED

Assertions made that the shotgun recovered from the Nierengarten home here had been photographed Thursday by W. J. King, Columbus detective, for the development of possible finger prints on the butt or cylinder, were emphatically denied by Sheriff Ewing.

"The gun has been under lock and key in my office since Wednesday," Ewing said, "and the key was in my pocket. I was absent from the city all day Thursday, serving executions and my deputy, Ed May, was also absent. Photographing of the gun could not have been possible."

Ewing further added that the gun had been handled by so many different persons since it was found in the Nierengarten home that the suggestion of finger prints thereon determining the identity of the murderer appears rather a far-fetched proposition.

"King was not at the county jail here Thursday and he had no opportunity to photograph the gun," Ewing said. "If he had sought to do so, permission would have been denied. King double-crossed us and flushed the game." Ewing added, "by spilling the beans after he had pledged himself to secrecy and gained our promise to keep under cover the additional statements made by Nierengarten concerning the murder."

DETECTIVE DENOUNCED

Ewing was very bitter Friday in his denunciation of King, and stated that so long as he is in charge of Nierengarten as a prisoner, King will be denied access to him, unless ordered by the court.

"King, on the occasion of his visit to the jail here Wednesday, did not secure from the prisoner one fact of material aid in the case," Ewing said, "save that the gun could be found on the organ at the home of his mother in Lima. Nothing else obtained from Nierengarten in the

way of information was new to us," Ewing asserted.

"Kling was anxious to have the new disclosures kept quiet until 'Whitley,' the mythical Toledo man, could be located. Then he double-crossed us. We're done with King," Ewing said.

Wapakoneta officials state their belief that there may be some truth in Nierengarten's story concerning Kershaw and himself being mixed up in illicit drug traffic, but not to the extent that a drug ring ordered the death of "Scotty" if he refused to turn over eight pounds of opium, Ewing declared.

"There is an inclination on the part of the general public in Auglaize co.," the sheriff said, "to disbelieve anything Nierengarten has said about the murder, save and except that he killed Kershaw."

FINE WORK, SAYS AKRON MAN

Has More Life and Energy Than In Years

"I never had such an appetite in my life as I have now, and I haven't an ache or a pain of any kind left," said C. L. Corvin, 389 East Thornton St., Akron, O., in relating his experience with Tanlac.

"Some months ago I lost my appetite and it actually made me sick to look at anything to eat. I lost strength right along and finally got so weak I could hardly pick up a hammer. My kidneys bothered me a good deal, too, and it was torture for me to stoop over and straighten up again."

Tanlac certainly has done fine work for me. I have more life and energy than in years and feel just fine all the time. Anybody who is rundown like I was is foolish not to give Tanlac a trial."

Tanlac is sold in Lima by Hunter's Drug Stores and by leading druggists everywhere — Adv.

TWO HELD IN \$1,000 ON LIQUOR CHARGES; PRISONER IN FAINT

Joe J. Janski, 27 and J. W. "Doc" Dorr, 38, of 1307 S. Main St., were arrested at a soft drink parlor operated by the latter, when Captain George Strick of the police department and other officers raided the place and found a small quantity of liquor.

Janski is employed as a bar-tender at the establishment. The two were arraigned on a charge of possession of liquor, in criminal court

Friday, and held under \$1,000 bond. A preliminary hearing in the case will be held at 1:30 p. m. Monday. Prior to being arraigned, Dorr fell in a faint in his cell and required the attention of a physician to revive him.

TAKEN ON SUSPICION, COUPLE SENTENCED TO MARRY; GROOM BROKE

"Sentenced for life."

Such was the verdict of Judge

Emmett J. Jackson in criminal

court when John Evans, 21, and

Andy Andrews, 23, were arraigned

before him, charged with disorderly

conduct.

They were arrested under susp-
cious circumstances by the police
Friday and told the court they were
planning an elopement to Monroe
Michigan.

"There is no reason to delay the
ceremony," said the court, eager to
assist Cupid in furthering the re-
mance. "I'll sentence you to be
married at once."

The prospective groom assented
but said he would have to borrow
money for the license.

HOPES TO ENTER PRISON TODAY

Sandusky Man Seeks Admission to State Penitentiary

SENTENCED AS EMBEZZLER

Didn't Have "Pass," Halted Ohio News in Brief

COLUMBUS — (By Associated Press) — Late this afternoon, Clarence L. Jackson, 45, Sandusky, probably will be in a happier state of mind than at any time during the last few days. He hopes to be admitted to the Ohio penitentiary as a convict to serve an indeterminate sentence of from one to seven years from date for embezzlement.

Last week the supreme court refused to consider his case. He had been convicted of embezzling funds of a Sandusky dairy company and his sentence was affirmed by the court of appeals.

Unaccompanied, Jackson yesterday came to the penitentiary from Sandusky and requested Warden Thomas to admit him as a prisoner. He said he had grown tired of people

asking him when he was going to begin serving his sentence.

Not having commitment papers the warden refused his request. Thomas, however, communicated with Sheriff Taylor at Sandusky who promised to forward the necessary papers today.

Jackson said he would return to the institution this afternoon.

GIRLS TRAINED IN BABY CARE

Practical Course Adopted by University of Nebraska

CHILD SECURED FOR PURPOSE

Each Student Takes Her Turn As Acting Mother

LINCOLN, Neb. — Assuming the role of "student mothers," that Kathryn Marie is of a good but substitute Lincoln family.

TRAINING PLAN
Kathryn Marie's adoption as a part of the household of the practice house was for the purpose of affording college girls an opportunity to learn first hand the fundamentals of intelligent care of the baby. Six sets of "mothers" will have been trained by the end of the school year, as six junior and senior girls in this department have a rotation six-weeks course with Kathryn Marie.

Each one of the six co-eds during the practice house course must function in one of six positions each week, rotating so that each girl has experienced in all six of the positions of the course. One girl is to be "baby manager," and will be responsible for Kathryn Marie's care that week.

She will prepare the baby's food, see that she is fed according to schedule, bathe her each day, clothes laundered and generally taken care of. Miss Marie Fuller, instructor of home economics and director of the house, will personally hover over Kathryn Marie to see that the "student mothers" do not get away from the schedule.

CONFER WITH DOCTOR
Once or twice a week Kathryn Marie will be taken to a clinic at the office of two Lincoln infant specialists and the girls will have an opportunity of talking with the doctors and getting an idea of where the baby's care could have

been improved and by what methods. The doctors will direct the girls to the outward signs of improvement and how to regulate diet as Kathryn Marie grows older.

Bouncing in a white baby carriage, propelled by a blushing co-ed, Kathryn Marie already is a favorite on the university campus, around which she is pushed for daily airing.

WRECKED SHIPS TO BRING SHOUT

Scraping Scenes Compared to
Launchings by Bryan

WILL BE LOUDER, MORE JOY

Sees no Cause for Alarm Over Di-
vision of Experts

BY WILLIAM JENNINGS BRYAN
WASHINGTON — The experts of
the United States and Great Britain
seem to think that the naval facts
support the 60 per cent proportion
offered to Japan, but the naval ex-
perts of Japan seem to arrive at a
different conclusion; in their judg-
ment naval facts seem to support a
70 per cent proportion.

The world should not be alarm-
ed at a failure of experts to agree,
it is a poor controversy that cannot
find experts to support both sides.

In an insanity trial the alienists
are usually divided. One group
see insanity in every movement of
the accused; the other group see
conclusive proof that the accused
was rational when the deed was
done.

Don't bother about the experts.
The important question is what is
desired by the governments that
employ the experts. Let the govern-
ments agree as to what is de-
sired, and the experts can get to-
gether and show how it can be ac-
complished most easily and most
quickly.

OPEN DISCUSSION

What a thing discussion is—es-
pecially in the open. If Secretary
Hughes had confidentially commun-
icated his disarmament proposition
to the other powers and they had
made private answer, the world
would still be in darkness and in
doubt as to the outcome of the con-
ference, but an open statement to
the world brought an immediate re-
sponse, and the world turned about
and faced toward peace. It used
to be great crowds gathered to
witness the launching of a new bat-
tleship. As the "most destructive
craft ever built" (as each new ship
was described) plunged into the
water for the first time, a shout of
joy went up from the watching mul-
titude. What a change has taken
place. They will soon begin the
scraping of battleships and larger
crafts will assemble and the
shouts will be larger still when the
first hammer's blow announces
that the smashing has commenced.
PATHWAY TO PEACE.

The pathway that leads from the
lowest plane to which man can fall,
up to the highest plane to which
man may rise, is thronged with
travelers, some ascending, some de-
scending. The question we ask is
not just where the travelers, but in
what direction he is going. Those
who are starting from the bottom,
will some day meet and pass those
who are starting from the top. So
there is a pathway leading from the
abyss of war to the summit of
peace. The question is not so much
just where a nation is on that incline,
but whether it is ascending or descending.

FORD PARTY OFF

Manufacturer Goes to Look
Over Muscle Shoals

DETROIT—(By Associated Press)
Thomas A. Edison and Henry Ford left here at noon today for
Muscle Shoals, Ala., where they will
make a thorough inspection of the
nitrate and water power projects which
the Detroit manufacturer proposes to
lease from the government.

The party, which included besides
Mr. Ford and Mr. Edison, a number
of engineers connected with the
Ford organization, left in Mr. Ford's
car.

The party is expected to arrive at
Muscle Shoals some time tomorrow.

They expect to determine the ap-
proximate amount of horsepower
that can be developed at Muscle
Shoals. Mr. Ford believes 1,000,000
horse-power can be developed there
and expects to show by data to be
collected that his offer to the govern-
ment of \$28,000,000 for the compen-
sation of the Wilson dam is a liberal
one.

**MICHIGAN BOY OUT TO
SEE WORLD FROM AXLE
OF BUGGY, HALTED HERE**

Patrolman Charley Hamilton was
pacing his beat on the south side
Thursday night, softly whistling
the "Memphis Blues," when he
spied a ghostly spectacle. It was
a white horse.

The red headed girl, supposed to
accompany the horse to make it an
omen of good fortune, was nowhere
in sight. Hamilton arrested the
driver, who was riding on the axle
or an old pair of buggy wheels,
drawn by the equine.

He proved to be Tom Ellingwood,
16, Hudson, Michigan, who had
started out to see the world on his
queer conveyance a week ago. He
had driven from Hudson, riding on
the axle.

The horse, he said, was pur-
chased from a farmer by whom he
was employed during the summer.

Ellingwood was turned over to
the juvenile authorities.

**FORMER POSTMASTER

land during President Harrison's ad-
ministration, and also formerly sec-
retary of the National Hardware
Dealers' Association and of the Na-
tional Board of Trade at Wash-
ington, D. C., died here this morning.
He was at one time auditor of Cuya-
hoga Co. Funeral will be in Cleve-
land Monday afternoon.

DIES AT AGE OF 92
WATERVILLE, O.—Stephen Bur-
nett, 91, a resident of this village
for the last 78 years, died at his
home here early today. Burnett who

OPERA HEARD BY WIRELESS

Audiences Now Enjoying Concerts at Long Distance

REACH ISOLATED FARM HOMES

Air Filled With Music and Short Stories

CHICAGO — On long winter nights when the family gathers round the fireplace in some isolated snow-bound farm-house the members need not lack entertainment, for the air is full of music, short stories and gossip, free to everyone prepared to receive it.

Thousands of amateur wireless operators, experts say, are listening nightly to grand opera, bed-time stories, phonograph and band concerts, crop and weather reports and serial gossip. Any wireless telegraph set can, without additional equipment, pick up the radiophone messages and concerts.

With the inauguration of wireless grand opera by Mary Garden, director-general of the Chicago Opera Company, three hours entertainment is furnished five nights a week.

OPERA PICKED UP

Telephone transmitters over the stage at the Auditorium Theatre pick up the opera and transmit it over

ordinary land wires, to a wireless station on the roof of a skyscraper several blocks away, and from there is sent out broadcast to any one with the proper equipment to receive it. The company operating the station maintains three other broadcasting plants, one at Pittsburgh, Pa., one at Newark, N. J., and one at Springfield, Mass. The program of the Pittsburgh plan is typical of the others.

Early in the evening a bed-time story is read by the sending operator. The stories generally consume about 15 minutes time. Next the weather and crop reports are announced, followed by a phonograph or band concert. This is the weekday schedule. On Sunday nights a specially prepared church sermon is sent.

CHICAGO SERVICE

As all the stations operate on different lengths, the amateur receivers can listen to all, one after another, by turning a small dial on their receiving sets.

The Chicago Opera service is the most ambitious program of all. At 7:30 o'clock, as the audience begins gathering at the Auditorium, the instruments are tested with a phonograph concert. A few minutes before 8 o'clock the "senders" announce the opera for the evening, the principal singers, the conductor, and then gives brief synopses of the first act, explaining the stage effects and scenery. At the end of each act a similar synopsis of the next scene is transmitted.

In the first test, when Samson and Delilah was sung, amateur stations have not only heard the orchestra and singers, but the clanking of the chains as Lucifer Muratore, as Samson, paced his prison cell, and the storms of applause that marked each curtain call. The sounds were so clear that amplifying devices were unnecessary, ordinary

receivers lying on the table at the receiving points spreading the music throughout the room.

Confidence

is inspired in a thing that is certified by the highest authority on the subject. SUSTO is thus certified.

Because it is the first Vitamine Tonic Food ever scientifically tested and approved after complete clinical investigation by nutritional experts in one of the leading medical colleges of America.

Not an ounce of SUSTO was offered to the public until its tonic food value was definitely established after months of practical tests made by Dr. Philip B. Hawk, Professor of Physiological Chemistry of Jefferson Medical College.

This is the first time in history that a tonic reconstructive has been offered to the public backed by the full approval of world-recognized, scientific authority. It would be impossible to secure higher testimony as to the efficiency and tonic food value of SUSTO.

SUSTO contains in concentrated form the vitamines of yeast, milk, rice, eggs, beef, etc., those essential elements that all nutritional experts agree are absolutely necessary to maintain life, promote growth, preserve bodily health, strength and energy. SUSTO supplies those elements, and if taken regularly each day reinforces the daily food so that people steadily gain in health and strength, eat better, sleep better and enjoy the vitality which comes only from a properly nourished body, all without the aid of medicine.

It will increase your weight, banish that run-down condition, give you strength and more vitality, make you feel better every way. Makes delicate children grow like weeds.

Ask about SUSTO at Thompson's 3 Drug Stores. If you try the treatment for one month, at a cost of 10c a day, and you are not in better health in every way—weigh more and feel stronger they will return your money.

SAVINGS CHECKS NEAR \$400,000

Christmas Deposits to be Paid
Out Next Week

ENTER LIMA TRADE CHANNELS

Average Per Person Higher This
Year Than Ever

Lima banks will loosen the draw
strings on the bags holding Christmas
savings club checks next week, it was
definitely announced Friday.

Thirteen thousand people will re-
ceive \$335,893.14 from the several
institutions having Christmas sav-
ings accounts. Nearly \$2,000,000
has been distributed to Lima de-
positors in Christmas savings checks
in the last 10 years, figures com-
piled Friday show. One or two of
the prominent banks handle only
commercial accounts and have no
Christmas savings clubs.

BIG TOTAL SHOWN

The Lima Trust company stands
first this year in total number of
checks to be sent out and with the
largest amount to be distributed.
Five thousand Christmas savings
checks will be issued for a total of
\$125,393.14. The First National
will distribute \$100,500 to 3,800
persons. The Old National will send
out \$75,000 to 3,000 depositors and

the American Bank will disburse
\$35,000 to 1,000 Christmas club
savers.

Nearly half a million dollars will
be sent out next week by Lima
banks, one of the largest combined
amounts ever totaled in this city to
be paid at one time in Christmas
savings checks.

Despite depressed conditions, un-
employment and other things that
have made the money market close
for months past, Christmas savings
this year average higher than in
several years past, it was declared
Friday.

ENTER BUSINESS CHANNELS

What the release of this vast
amount of money at one time will
mean to Lima merchants and Lima
business, and how far it will go toward
making for a Merry Christmas in
Allen-co., remains to be seen, several
bankers declared Friday.

Many depositors who started
Christmas savings accounts early in
1921 were forced to withdraw them
because of unemployment, greatly
reducing the sum total which will
actually be distributed next week.

The checks will be made payable
December 10, and will be sent out
about December 7. It was stated Friday.

LIFE OF EUROPE'S WORKERS HARD

News Writer Describes Conditions As He Found Them

LIVING IS EXPENSIVE NOW

Skilled Labor's Pay Far Above That For Unskilled

Whiting Williams is just back from France, Belgium, Germany, where he conducted a "pick and shovel" investigation of labor conditions. Williams is telling you the things he learned by working and living with European toilers, whose postwar conditions are influencing deliberations of the Washington arms conference. This is the second of Williams' articles especially written for The Lima News.

By WHITING WILLIAMS
FOR LUNCH and breakfast when we worked for our captors most of us had to do this," said one of my fellow workers in a steel and machine plant at Douai, France, as he gave a big pull at his belt. "When one grew too weak to pull up his belt — well, we buried him — with a soldier watching us."

"If we missed our work for a day we spent the next day in prison — even less food than when we worked."

It was a good town to come to for work. Masons and laborers from all over the country were repairing the station, the great railway yards and factories which had been shot to pieces.

At our boarding house these workers accepted me as an American who wanted to learn "everything possible about makin' steel in Europe, seein' that there's no job to be got just now in America."

"YANKEES ARE RED!"

"You're not a real American." From all the books I've read every American had a redder skin than you."

Finally I discovered that he'd been reading the novels of Fenimore Cooper about the noble Indians!

At our boarding house we paid almost two-thirds of our week's pay for about as much dirt and filth as I've ever run into. Our kitchen was in a sort of glass-covered court. Here by the pump and the piece of mirror all of us, including the Indians, washed our faces and "did" our hair.

Over in the corner of the court by the dog's bones and the garbage pail, the flies were so thick that a fellow almost had to wait for them to buzz out of his way before he could go upstairs. Just in front of the court in the dining room — it was also the barroom — we had generally to fight the flies with one hand while we fed ourselves with the other!

What we succeeded in getting past the flies was abundant but surprising bad considering the French reputation for good cooking. We took all the potatoes we wanted into our bowls after we finished our soup — and my friends had some of the best appetites I ever saw!

EAT ON MEAT

But the landlady did not trust us to take our meat. Instead, she gave us each piece — and we all felt that she tried hard to be fair. Meat is very expensive over there.

It took pretty close figuring for anybody to have much left after paying for our "eats and sleeps." A pair of sole-soles took three-quarters of a day's pay. A good pair of shoes took nearly three days' pay. The cheapest of overalls in the market place set a fellow back for a day and a half's earnings.

There is too much difference between us manual laborers and the skilled workers." That was the complaint of Jean, hod-carrier, "Picture yourself! Some skilled workers who sweat less than you and I, draw almost twice as much. And even now the patrons (employers) trying to reduce our wages. How can we submit?"

I could hardly wonder that these men, living and working as they did, should figure out the situation in this way. Nevertheless, statistics show that the common laborers of France have pretty generally kept up with the 350 per cent increase in the cost of living over pre-war days, though they and other unskilled workers in Belgium, Germany, and Britain have had more increases proportionately than the skilled workers and infinitely more than the trained professions like teachers, doctors and clerks.

Next Williams tells in The Lima News, the human side of the workers who are rebuilding devastated France.)

A Wonderful Hair Saver and Real Beautifier

Parisian Sage quickly stops falling hair, makes hair grow again. It or nothing to \$2.50. If your hair is falling out or is faded, streaked and scraggly and new hair does not grow, the roots must be immediately vitalized and properly nourished. To do this quickly, safely and most effectively, get a bottle of Parisian Sage from your druggist and follow the simple directions. Parisian Sage is a quick-dissolving oil and dandruff stop itching hair and falling hair and stimulates hair to grow again or money refunded. It's in great demand because it makes the hair soft, lustrous, and easy to manage, and appears heavier than it really is. A massage with Parisian Sage is a delight — easy to do, and with a slightly perfumed antiseptic liquid that does not change the hair's color. If you want a clean, healthy scalp, plenty of thick, good-looking hair, try using Parisian Sage tonight. Thompson's Drug Stores will supply and guarantee money refunded if unsatisfactory. Adv.

Take Yeast Vitamon Tablets To Put On "Stay-There" Flesh

More "Pep" and "Punch" — Small Cost.

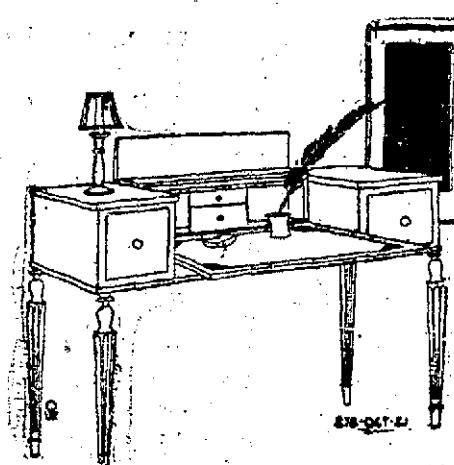

Thin or run-down folks will find this simple test well worth trying: Take Mastin's VITAMON — two tablets with every meal — and make yourself each week sick and take off Mastin's VITAMON regularly until you are satisfied that you gain in weight and energy. Mastin's VITAMON Tablets contain highly concentrated yeast-vitamins as well as the two other still more important vitamins (Fat Soluble A and Water Soluble C), all of which Science says you must have to be strong, well and fully developed. By increasing the nourishing power of what you eat Mastin's VITAMON Tablets supply just what your body needs to feed the shrunken tissues, strengthen internal organs, clear the skin and renew shattered muscle tone with surprising results of strength and curing gas. A two weeks' test will surprise you!

IMPORTANT: While the amazing health-building value of Mastin's VITAMON Tablets has been clearly and positively demonstrated in cases of lack of energy, nervous trouble, anemia, indigestion, constipation, skin trouble, bone calcification, and a generally weakened physical and mental condition, they should not be used by anyone who OBJECTS to having their weight increased to normal. Be sure to remember the name — Mastin's VITAMON. You can get Mastin's VITAMON Tablets at all good drugstores.

PERFECT MEN AND WOMEN MYTHS

Dr. Fisk Brands of Defective 60 Per Cent of Human Race

STARTLING DECLARATIONS

Compares Modern People With Those of Long Ago

(BY DR. EUGENE LYMAN FISK)
Medical Director of the Life Extension Institute.

NEW YORK — (Special) — Surrounded by the luxuries and conveniences of the 20th century and enlightened by modern education and religion, the average visitor to a museum of natural history regards the rebuilt skeletons of Eocene man with a high and complacent sense of superiority. Aside from the mental improvement, however, is this complacency justified? Any chiropractors tell us that we

are evolved from a ground ape and figure the beginning of man from the time this prehistoric beast first arose from all fours and walked on two feet. Centuries after, came the Pithecanthropus Erectus, the Heidelberg man, the Piltdown man, the Neanderthal man and the Cromagnon man—types now all-extinct.

The intelligence of the Cromagnon man was comparatively high. He was an artist and tilled the fields and yet his type passed away; simply because he was physically inefficient.

Now, after the evolution of some 10,000,000 species—now all extinct, we have man in his present state, the genus homo. Most of us are rather inclined to assume that evolution has done its work, and that ours is the type that will finally go on thru the centuries until earth meets its end.

It is an unjustified premise, for there is little scientific evidence to show that man is more fit physically than he was at the dawn of history. As a matter of fact, all the evidence points in the other direction; that man is deteriorating in his physical attributes. If man is to progress physically, science must take up the task where evolution has dropped it.

THE "PERFECT MAN" One of the favorite indoor sports of American city editors is running feature stories on the "perfect

man" or the "perfect woman." Over 150,000 examinations conducted at the Life Extension Institute, or by its representative physicians throughout the country since 1914, have failed to find a single "perfect" human being.

These examinations, given with the purpose of finding impairments which injure health and shorten life, and of giving the necessary remedial advice, have established some unpleasant truths about the genus homo. Nearly 60 per cent were found to have advanced physical defects or impairments requiring systematic medical or surgical supervision and treatment.

The defects of less than 1 per cent could be classified as "slight." The rest, or nearly 40 per cent were found to have "moderate physical defects or impairments, requiring hygienic correction or minor medical, surgical or dental treatment.

This is evidence enough of the deficiency of the modern human

machine. We have reduced the mortality among certain diseases, we have increased the expectancy of life, and we have built up great schools of medicine for making the sick well. But in keeping the well from getting sick we stand abashed before the caged tiger at the zoo. The jungle even in captivity, orders these things better.

Science has recognized all this,

and our public health services and public schools are doing a great work to correct the situation. More obscurely, the scientist in his laboratory has been quietly at work, experimenting with the life mystery, and working out ways by which we may get "back to Methuselah."

This is the second of a series of articles by Dr. Fisk on prolonging life. The third will appear in The Lima News Sunday.

CRIDERSVILLE MAN DIES
Funeral services for Henry Bitzer, 72, were held in Cridersville Friday, from the residence of his son-in-law, C. H. Miller. Bitzer, who was an unsuccessful candidate for justice of the peace of Duchoncourt, Auglaize co., in the recent election, died Wednesday at the home of his son, Harry Bitzer, in Cincinnati, where he was visiting.

WATCH FURNACES!

You Can Help Save Coal and
Keep Warm, Too

You'll have to keep one eye on your furnace all the time this winter to escape the hardships a coal famine may bring.
The old method was to fire the furnace and let it burn until the house became uncomfortably hot or cold, then rush into the cellar, fix the fire and let it go again.

That system won't do if you want to get the greatest possible value out of your coal.

Look at your fire at least three times a day. Give it attention when you get up in the morning, when you come home in the evening and before you go to bed at night.

SHAKE THREE DAILY

Don't make the mistake of shaking down your furnace too often. Three times a day is often enough. Sometimes twice — early in the morning and late in the afternoon — will do.

Don't shake live coals thru the grate. That wastes coal. When the weather is mild, it won't hurt to leave an accumulation of ashes in the grate.

But never let ashes accumulate in the ash pit under the grate. That chokes your fire. Clean out the pit immediately after you're thru shaking down the fire.

Accumulations of ashes in ash pits ruin your furnace grates, besides wasting coal.

Don't shake down your fire until it's had time to catch. When you attend to the fire in the morning, open the smoke-pipe draft damper and ash pit draft damper, throw on some fresh coal and wait till the fire burns briskly. Then shake down.

Don't disturb your fire continually by poking and upturning unless that's necessary to prevent formation of clinkers.

DIES AT AGE OF 108
GALESBURG, Ill. — Mrs. Mary Barber, 108 years old, who spent the early days of her life as a slave in Virginia, died here.

MOTHER!

Clean Child's Bowels with
"California Fig Syrup"

Even a sick child loves the "calm" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, weary, full of cold, or has colic, be a teaspoonful to cleanse the liver and bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, bile and waste out of the system, and you have a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You just say "California" or you may get an imitation fig syrup. —Adv.

NO LEGIONNAIRES ARRESTED

Reported Rowdyism at Kansas City Denied by Police

Nobody Dies from Drink

Rumored Property Damage Belittled by Chief Edwards

KANSAS CITY, Mo. — (By Associated Press) — Since the American Legion convention adjourned here November 2, numerous stories have dotted back to Kansas City of rioting, lawlessness and destruction of property reported to have occurred there during the convention. Numerous inquiries regarding the alleged lawlessness have been made of the police department here, but interesting as the stories are, the police department has been obliged to deny all of them according to Charles Edwards, chief of police, and Matthew A. Foster and John E. Wilson, Kansas City police commissioners.

The records of the police department show, according to Chief Edwards, that no Legionnaires were arrested during the session of the convention.

"Two ex-soldiers who came here to attend the convention died," the chief said. "One of them committed suicide by taking poison, and one man died several days after the convention, from pneumonia. He was a Canadian veteran and was buried with military honors. Nobody died from drinking wood alcohol or corn whisky, or any other sort of whisky, so far as we know, and we believe we know practically everything that happened."

PROPERTY DAMAGE
"Property damage? It amounted to this: Eight or ten pillows belonging to a hotel were ripped open by enthusiasts, who wanted some artificial snow for stage effect. The feathers were thrown down into a hotel lobby and into the street. A few trash cans, placed on the streets, was pretty thoroughly demolished. Some celebrant, who had been waiting three years to express his delight that the war was over, got the idea it would be fun to drag a trash can at the tail of a taxicab. The idea spread. The casualties among the trash cans were heavy."

As a matter of fact, according to the police commissioners, that ebullition of spirits, comparable to what often happens after a college football game, was the only semblance of lawlessness which occurred during the convention. The crowds were large and noisy, but they did not damage property or indulge in the drunken orgies with which rumor has credited them.

"We found, in almost every case reported rowdyism," Chief Edwards said, "that the persons responsible were not Legionnaires, or ex-service men. They were local characters, who took advantage of the big crowds to try tough stuff." Several local pretenders, arrayed in uniforms they had bought themselves, and never knew the right to wear, started a nibbling game. We broke it up the night of November 2, and they ran away so fast that several of them got caught in a revolving door in a hotel and badly bruised.

ONE SHOOTING SCRAPE

"One shooting scrape was reported in a quarrel over an American flag. We found out that the 'proud veteran,' who received a flesh wound from his opponent, was not a veteran at all, but a casual tramp, who had never been in service, but was feeling over-patriotic."

The police found the ex-service men their best aids in quelling what might become disturbances. The soldiers and 'buddies' seemed to get along very well. Perhaps one reason for that is that a considerable portion of the present police force are themselves ex-service men."

Chief Edwards was a major in the A.E.F.

Commissioner Foster said that the number of accidents reported during the Legion week was below normal. One automobile was wrecked in a collision with a street car. No one was dangerously injured.

OPEN LETTERS

To Emanuel Company

GENTLEMEN: It is indeed gratifying to me that thru the good offices of my chamber of commerce you are becoming interested in the project of establishing a monster plant in my city, for the purpose of generating electric power on a scale such as will be ample to take care of the growing needs of industries, for commercial purposes and for street lighting.

That there is a measure of prospect of your company taking over the street railway system in my city and making it a real transportation enterprise, in addition to affording an ample supply of electrical energy for purposes, public and private, is indeed most pleasing.

Lima has kept abreast of the times in every way in the things that make for the development of industry, save and except in the matter of an ample supply of electrical energy. In my manufacturing institutions electricity is more and more in demand every day. Progress has been stilled by very reason of the fact that I have not had access to a sufficient amount of current.

Reviewing the past, in progress made in the use of electrical current and noting the fact that it has become an indispensable part and parcel of municipal necessity, it is not unreasonable to believe, looking into the future, that in time the mystery energy will not only drive the wheels of industry of my city, but that it will also heat my homes and business houses, cook my meals and perform a thousand and one other things in homes where it is now a stranger, save possibly for lighting purposes.

I trust that you will thoroly investigate the future possibilities of Lima and I am certain if you do, you will agree with me that a project such as you contemplate will prove an excellent one from the standpoint of investment and that it will materially aid in still further development of my city in every way.

The one thing I need most is more electrical energy in my factories, workshops and in my homes. I sincerely hope that you will decide to provide it.

To The Lima Telephone & Telegraph Co.

GENTLEMEN: Once before I called your attention to the matter of dropping the numerical list from your directories. I always considered that list a fine service on your part. It was a convenience and I have heard many deplore the fact that you discontinued it.

You are preparing a new directory now. Why not put back the list?

To Postmaster Gale

MY DEAR COLONEL: Congratulations are apparently in order, since you have landed on your feet in the private office in the federal building, designated for the use of the man in charge of Uncle Sam's official mail distributor and I wish to add mine.

I trust that your tenure of office, be it temporary or permanent, the question to be decided by a civil service examination and the favor of Congressman, Senator and President, will be pleasant and free from the troubles that often come to public servants, unsought and unwelcome. As postmaster in my city, your position is not only one of honor, but also carries with it a great measure of responsibility.

In view of the fact that you heretofore served in the same capacity, I take it that the problems of the service will in no wise be insurmountable for you.

To The Red Cross

DEAR FRIENDS: Early reports in the three-day drive being staged for 10,000 members of the great humanitarian organization in my city and in Allen-co. indicates to my satisfaction that in the finals a required fund for a continuation of your great work for another year is assured.

Despite the fact that the first attempt at putting on a membership drive was an admitted failure, due to lack of activity on the part of those pledged to see it thru, I am immensely pleased that your chairman, Calvin Selfridge, did not lose heart and that he succeeded in enlisting the aid of the women of my city in the commendable movement.

I trust that when the drive closes Saturday night, your officers will be in position to report that the 1922 Roll Call for Lima and Allen-co chapter of the American Red Cross has been an unqualified success.

GENTLEMEN: I am informed that you are to open your new shop in a short time and begin the production of your stove, which is declared to be a wonder. To the City Commission

MY FRIENDS: I have heard some of you express your attitude on the kind of man you are seeking for city manager. It sounded mighty good, had the ring of real business.

I know the statements I have heard from a part of your body represent the ideas of all, hence I am satisfied that you are going to employ a man who will measure up to the big job before him.

So far your actions have indicated that you are determined to give my city the kind of administration my people want—that based on good business principles. You are to be congratulated on your fine start.

To Lima Merchants

MY FRIENDS: My congratulations are tendered to each of you who caught the spirit of the "Shop-Early-Christmas-Display-Week" idea and aided in making the special effort for the week a splendid success in every way.

I cannot recall a time in the history of my presence in Lima when more attractive displays were presented by the stores of this city and I assure you, speaking for my people generally, that your enterprise has been appreciated.

My merchants tell me that they have enjoyed a wonderful week in merchandising and that the idea of buying early has laid fast hold on their patrons.

If nothing further than this was accomplished, the effort is worth while. I thank you and my congratulations are extended to the winner of The Lima News trophy, a loving cup.

UP

Cost of living during October rose six one-hundredths of one per cent, reports National Industrial Conference Board. That is infinitely small—like thickness of a sheet of gold leaf.

Nevertheless, it is disconcerting. For cost of living should be dropping rapidly. Prices paid by consumers now average about 63 per cent higher than before the war—far out of line with what farmers are getting. Boom times will come when everything is on same level, balanced. Not before.

SPEED

Fiction writers say "Fast as an antelope". That's slow. A hunter near Edmonton, Canada, chased an antelope in his auto and overtook them easily.

CONFUSION

Much argument has been stirred up over the girl at Janesville, Wisconsin, who smells colors and hears by the sense of touch.

Such a case is known to science as "confusion of the senses." Some have it in the form of seeing vivid colors when certain notes are struck on piano or violin.

Fortunately, government protection of seals now is rigid, and the herd has increased to 600,000.

Man is reckless of anything he finds in great quantities. Few of us look into the future, guarding against shortage.

Sounds impossible, but science has greater wonders than that.

TWO GUARDS SLAIN IN JAIL BATTLE

Sinn Feiners Attempt to Free
Prisoners at Belfast

ATTACKERS ARE REPULSED

Britain Offers New Terms for
Irish Settlement

BELFAST — (By Associated
Press) — An attack on the jail at
Londonderry with the object of re-
leasing the prisoners there, was re-
pulsed by the police guards today.
Two policemen were killed and sev-
eral of the attackers captured.

The party gained entrance to the
jail undetected, and their presence
was not discovered until a patrol of
policemen saw a rope ladder hanging
over the wall, and gave the alarm.
The military guard inside had no-
ticed nothing unusual, but upon in-
vestigation they found the two con-
tables who guarded the Sinn Fein-
ers lying dead in the corridor.
They had been drugged and strangled.
The republican rescue party had
opened the doors of ten cells when
the guards surprised them at their
work. The military opened fire, the
republicans replying with revolvers.
Pandemonium prevailed for some

time, but the guards finally gained
the upper hand without losing any
of the prisoners, at the same time
capturing three young Londonderry
men who made a final attempt to
release the prisoners.

Three motor cars, which had been
left with engines running by the
attacking party also were seized.

NEW IRISH TERMS

LONDON — (By Associated Press)
— The British government's latest
proposals for settlement of the Irish
question will be considered by the
cabinet of the Dail Eireann in Dublin
tomorrow. The new terms, which
were handed to the Sinn Fein delega-
tes in written form, show some ad-
vances over the government's previous
proposals, and the delegates
felt the necessity of giving them full
est consideration at a cabinet session.

The terms, it is said, concede from
the beginning the Sinn Fein's claim
for the unity of Ireland. Ulster must
be included within the scheme from
the start, according to the plan as it
now appears to have been framed and
must remain in force for six months.

After that period, and before the end
of a year Ulster is to be given the
option to withdraw if it goes
there must be a boundary commis-
sion to determine the exact area which
is fairly entitled to go with her. If
Ulster goes under this plan she
would reserve only her present pow-
ers and not obtain the fiscal freedom
that would be left with south Ireland.

The Sinn Fein has neither accepted
nor rejected these proposals, but
had promised to consider them final-
ly tomorrow.

The question of allegiance is still
the crux of the situation but efforts
are being made to devise some form
of declaring allegiance which is hoped
by the government the Sinn
Fein will accept.

Real Beautifier

Parisian Sage Quickly Stops Falling
Hair, Makes It Grow and Beautifies
It—or Nothing to Pay.

If your hair is falling out, is faded,
dry, brittle and crusty or is not
done, now is the time to make it im-
mediately vitalized and properly nour-
ished.

To do this quickly, safely and most
affordably get a bottle of Parisian
Sage from your druggist and follow the
simple directions for home use.

Parisian Sage is guaranteed to quickly
banish all dandruff, stop itching
and scaling, and stimulate new
hair to grow, or money refunded.
It's in great demand by discriminating
women because it makes the hair so
soft, lustrous and easy to manage, and
appears more lustrous than ever
before. A hair massage with Parisian Sage
is a real delight—easy to use, not sticky,
a delightfully perfumed antiseptic
liquid that does not change the hair's
natural color.

If you want a clean, healthy scalp,
and plenty of thick, good-looking hair,
start using Parisian Sage tonight.

AMERICAN WOMEN ARE INVADING EUROPE-AND CONQUER IT!

Marry Leaders Abroad,
Rule Them

LONDON — (Special) — American women are running Europe!

Some of them are doing it directly, as Lady Astor, American girl who sits in Parliament. Others run things indirectly by marrying leading men.

Look at this list:

Grace Edwin Hinds, daughter of a former American minister to Brazil, is the wife of Earl Curzon, His British foreign minister and leader in the House of Lords—the biggest figure in British politics except Premier Lloyd George.

Lady Leo of Farnham was Miss Ruth Moore, daughter of J. G. Moore of New York. Her husband is the first lord of the admiralty. That's what the British call their secretary of the navy. He's at the Washington conference now.

And Miss Ellen Field, daughter of Marshall Field of Chicago, is wife of Admiral Lord Beatty, first sea lord of the admiralty.

The Duchess of Marlborough was Miss Gladys Deacon, another American girl.

The Earl of Granard, greatest land owner in England, has as his wife Miss Beatrice Ogden Mills, daughter of a New York millionaire.

Miss Alberta Sturges of New York is wife of the Earl of Sandwich, who's been undersecretary in a number of British cabinets and who was chairman of the Central Prisoners of War Committee during the war.

A leading German diplomat is Baron Wilhelm von Schoen, ambassador to Poland. The baroness was Miss Catherine Birney of Washington.

Other leading American women in Europe are:

Ethel Wyman of Detroit, now wife of Count von Lerchenfeld, premier of Bavaria.

Countess von Bernstorff, wife of the former German ambassador to the United States.

The widow of Prince Christopher of Greece, known as the "dollar princess," formerly Mrs. W. B. Leeds.

LETTERS TO LOVERS

BY WINONA WILCOX

THE girl who indulges in "petting parties" never can know what the best love is like but perhaps comes closer to it than the girl who dreams of love but "just hates" all the men she knows because they do not measure up to her dreams heroes.

Far-reaching, indeed, are the ills resulting from the latter phobia. For example:

"I was to have been married in the spring," writes a desolated maiden. "The man I was engaged to asked to be released; he said that I am too cold, too unsympathetic."

"My half-sisters, years older than I, educated me. They both hate men. They think all men are conceited and deceitful. They called me silly because I let the man I was to marry put his arms around me."

"The fact is that I am extremely sensitive by nature, very affectionate and sympathetic, but I have been raised to conceal my feelings from men."

The ideas of my sisters ruled me and caused me to act like a perfect stick when I was engaged. Therefore I have lost my love forever.

"My sisters say it is just as well, but my heart is broken."

"I actually envy the painted, chattering girl in a short skirt who knows what she wants in a mate and goes after it quite frankly."

Psychology explains why this poor child's love affair came to its sad finale. The story begins with her guardians, the spinster sisters. They had men. Being puritanical doubtless taught the girl, while she was still a child, to be ashamed of her need to be loved and caressed.

Real Rest Depends Largely Upon the Depth of Your Sleep

A warning to "light" or "poor" sleepers

The deeper and sounder you sleep the better you feel. Five hours sound refreshing sleep does you more actual good than ten hours restless, disturbed sleep.

This is because the final conversion of food into vital tissue and nerve cells goes on more rapidly when the physical and mental forces are at rest.

You can't get sound, refreshing sleep if your nerves are agitated with tea or coffee. Both these drinks contain caffeine, which is sometimes very irritating to the brain and nervous system.

If you want to know the joy, vigor and stamina that comes to the person who gets sound, healthful sleep, why not stop taking tea or coffee for a while, and drink delicious, invigorating Postum instead.

Thousands of people everywhere have found that this was the only thing they needed in order to bring about these very happy results.

Order Postum from your grocer today. Drink this delightful cereal beverage of coffee-like flavor, for a week. Perhaps, like thousands of others, you'll never be willing to go back to tea.

Postum comes in two forms: Instant Postum (in size) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

Postum for Health

LUNCHEON AND BRIDGE EVENTS AT ELKS CLUB

MRS. J. W. GALLASPIE of N. Collett-st. and Mrs. A. W. Whitney, of State-st., presided at an attractively appointed 1 o'clock luncheon at the Elks' Home Friday.

One large table, at which 10 were seated, and eight smaller tables were laid in the dining room. Each was graced with a centerpiece of pink rosebuds. Place cards, nut baskets and all other appointments were in pink. Following the luncheon the guests repaired to the reception room where bridge was enjoyed. Dainty gifts were presented to the two holding highest scores.

Guests included Mrs. C. H. Shapell, Mrs. C. L. Ackerman, Mrs. Samuel Roeder, Mrs. Lee Copeland, Mrs. F. J. Banta, Mrs. Scott B. McGinnis, Mrs. L. J. Hoffman, Mrs. R. A. Buchanan, Mrs. R. R. Cotter, Mrs. S. M. Williams, Mrs. J. W. Tucker, Mrs. C. C. Crossley, Mrs. W. F. Hoover, Mrs. Robert Treaster, Mrs. C. B. Plate, Mrs. E. A. Gale, Mrs. W. H. Howell, Mrs. Carl Bowdle, Mrs. E. W. Hoffman, Mrs. W. J. Feiser, Mrs. C. W. Councillor, Mrs. P. A. Kahle, Mrs. N. F. Hall, Mrs. Willis E. Hydaker, Mrs. Ralph Burnbaugh, of Grand Rapids, and Mrs. H. F. Huber, of Marion, Ind.

A. W. Withrow, of S. Metcalf-st. was pleasantly surprised when a group of friends gathered at his home in celebration of his 45th birthday anniversary. The evening was enjoyed socially and a delicious chicken dinner was served by Mrs. Withrow.

Those present included Mr. and Mrs. Frank Oberdier, Mr. and Mrs. Edward Wentworth and daughter, Mrs. Ruth, Miss Ida Jacobs, Mr. and Mrs. H. A. Drake and daughter, Thelma Irene, Carl Jacobs and Mr. and Mrs. Withrow.

Members of the S. C. D. club met with Mrs. W. A. Wagner of S. Elizabeth-st. Thursday. Euchre was the pastime. Mrs. Jerry C. Cashman and Mrs. A. M. Finch holding high scores. Mrs. A. B. Mentor was the only guest. The hostess served a dainty lunch after which the members adjourned to meet in two weeks with Mrs. P. F. Weiss, of S. Collett-

Next meeting will be held Wednesday, December 14th with Mrs. George Macdonald, of S. Cole-st.

Daughters of the American Revolution meet Saturday at 2:30 p.m. at the home of Mrs. O. B. Selfridge, of W. Market-st. Assistant hostesses will be Mrs. Luah M. Butler, Mrs. L. Mackenzie and Mrs. Rolla Holman. Program will be in charge of Mrs. Selfridge, who is chairman of the patriotic education committee.

The faculty of South high school has issued invitations for a dinner party to be given at the Lima club Saturday evening at 6:30 o'clock honoring the football squad and Coach Ward C. Young.

Those present included Mrs. Perry Roeder, Mrs. E. A. Daymon, Mrs. Edward Blair, Mrs. Harvey Bowholz, Mrs. Charles Roeder, Mrs. E. R. Glover, Mrs. S. H. Ruff, Mrs. Ray E. SUSIE SMART SAYS

Dear Miss Smart:
(1) Please tell me if bobbed hair is going out of style. (2) Are there many girls having bobbed hair now? (3) Are tweed skirts good now? (4) What trimming is used on wool and velvetized dresses this year? (5) Are girls going to wear oxfords and stockings? (6) Is it better to just go out with one boy or with several? Some say: "There is safety in numbers." (8) What is the meaning of the following: (a) Alice, (b) Ruth, and (c) Lewis? (9) I went with a boy steady for six months. Then he quit me. He promised me he would come back to me again but he never came. I do not see him very often. I would like to know why he didn't come. How can I find out? I cannot forget him. He was a nice boy to me. Tell me how I can win him back. He does not go with any girl steady. Please advise me.

REED HEAD

(1) It does not seem to be—at least, not by the vast number of admirers of this style who continue to clip their tresses just for comfort's sake. (2) I presume you have two perfectly good eyes. They are the easiest things in the world to use. Why not make use of them and depend upon them for your observations? (3) Very good. (4) Go thru the stores and look at the new frocks and get an idea yourself of the kind of trimmings used. There are so many attractive ways to trim dresses. The clerks are usually very courteous and glad to show what they carry. (5) Many will. (6) Consult Webster. (7) It is better for a young girl to go with different boyfriends and not confine herself to one—at least not until she is old enough to become engaged and really know whether she cares enough for a man to spend the rest of her days with him. "Is true that "there is safety in numbers" and also that "variety is the spice of life." (8) (a) a princess; (b) beauty, and (c) bold warrior. (9) See you are another of those girls whose self-pride is not strong enough to impel her to refuse to concern herself with a boy who no longer seems to care to continue his friendship! Forget about this boy. If he broke up your friendship with no reason whatsoever, you may assume that he no longer cares for you. Interest yourself in other friendships and you will soon forget him.

Kingnut MARGARIN for people of taste

Cake made with Kingnut is tender, light and has a delicious flavor.

Warning

Do not be misled by the word oleomargarine on the Kingnut package, made necessary by the survival of an old law. Kingnut contains no animal fats. It is made from the pure oils of the coconut and peanut, blended with pasteurized milk.

Never Once Touched

by Human Hands

From the first step in making until the grocer delivers the sealed carton at your home, no hands touch Kingnut.

It is made in spotlessly clean model kitchens, of deliciously pure ingredients. The wholesome oils of the coconut and peanut, blended in pasteurized milk—that is Kingnut.

In taste, in purity, in uniform quality, do not confuse Kingnut with any other product, and do not regard it as a substitute for anything. Kingnut is Kingnut.

A luscious, nourishing food for every-day use on the table and in the kitchen of people who insist on the best of everything. The fact that it happens to be a great economy is but an added advantage.

Kingnut saves from 15c to 25c a pound

ing on here, even here! Hunting

my down. It was a — a chase!

That is no flattery to a woman in

these days, either," she declared.

"That's another mistake that you

men make!" "Women like it," you

go on saying. The truth is that

some of us," panted the girl,

"some of us have got a long ways

from the cave!"

I listened, my tiredness forgotten,

for I could imagine the

... say, a Canadian, with all the

caveman's keenness and love of the

great outdoors, but gentler, with,

the sensitive hands of the

modern airman. He could have

made of me ... ah, not just the

prey.

Yet gazing at this so different

type of girl, I realized something of

the rich variety of Life and Love.

A breath from another world seemed

to stir in the mountain breeze

about her.

"You make me think of another

British officer that I met over in

France," she went on, "who was

just mad about big-game shooting.

Everything was a 'head' to bring

down. You've been like that about

finding me," she cried, "and then you're surprised because I say it

makes me sorry I'm a woman! You

didn't wait to consider me, or if I'd

want my friends — with a spurt of

rage. "All of them, on the Paper,

discussing this! All of them in the

Camp here! The girls, Bill and

Coke, Madama, the Professor, the

Chief — oh! Horrible! It'll

make everything different — even

here! All spoilt! And thru you!"

she flung out at my brother.

"What can you have to say for it?"

Jim's gravity was, in its different

way, as striking as the Girl's ve-

hemente had been.

"To begin with," he said. "About

keeping that mascot. Anyhow,

about sending you that other one. I

never — Good Lord, I never

thought about its coming from Bond

Street. I'd seen those little jade

fellows in the window there, and I

thought they looked rather like

your gadget. I never thought about

whether yours was 'real' jade, or

what. All I wanted was to get the

nicest that I could see for you. As

for talking to your friends. Well!

what did you expect me to do when I found that by the merest

chance we'd a friend in common?"

"A friend in common?"

"Yes. Claudia Crane. She

came over on the boat with us, and

we met her in Chicago."

"She told you where to find me?

Miss Crane? I should have thought

she could have told you how mad I

was about it all!"

"She didn't. Seemed to think it

was better for me to find out by

myself," added my poor Jim. "Then,

about this film-business . . . I just

thought of it as the only way, you

know. No name, no address, no

name. Ought I to have written

round to every one of your war-

working centres over here to try and

identify you? I thought of that,"

he said, "before I hit on the cinema-

touch. That seemed more direct."

"Where is Cousin America?" I'd

nothing else to call you. I was

never heard your name."

"Ah, you were in Chicago, then,

asking after me?" Oh, what did it

matter that my name wasn't on

your message? All my friends

knew. That odious, horrible mes-

sage on the screen. They knew that

it was meant for me!"

"But —"

"How dared you call me 'Cousin

America'?"

"You didn't even know my

name but you gave me a nickname.

Then, without my permission, you

went way over to my home-town

to seek me! I suppose you were

with my friends?"

"Um, nodded admiringly.

"Yes! Asking them about! Follow-

BRIAND RECEIVES COLD GREETING

No Enthusiasm Shown While Premier Lands at Havre

FACES STORM AT CAPITAL

Will Give Account of Washington Mission Today

HAVRE — (By Associated Press) — Premier Briand returned to France today after five weeks absence, in which he presented to the Washington conference France's position on armament limitation. As he landed here he was greeted with indifference, but without enthusiasm. Premiers Briand landed at 10:26 a.m., being brought here on a destroyer to which he was transferred from the liner Paris. The entire French cabinet, with

the exception of Minister of Justice Loucay, and the acting premier War Minister Barthou, met the Paris ten miles at sea on the tug Athlete. In a northwesterly wind which was blowing half a gale, threatening to send the tiny tug crashing against the plates of the huge Paris. M. Briand, "Sailor of Saint Nazaire," boarded the Athlete. A heavy sea was running, but the premier's opponents made no pretense of hiding their opinion that it was balmy as compared with the storm M. Briand will have to face in the chamber of deputies next Tuesday when he gives an account of his Washington mission.

M. Briand was informed that coincident with his return, lists were being circulated in the chamber of deputies and the senate purporting to give the composition of a cabinet under former President Poincaré which the opposition expects will succeed the Briand ministry should the latter fall as a result of non-payment by Germany of its reparations quota due January 15.

RALLY TO POINCARE

At the M. Poincaré has refrained from attacking the present cabinet, the former president delivered an address at Bordeaux last week which has been characterized as a "program speech" and M. Briand.

and's adversaries are rallying behind him. The cabinet members with whom the correspondent talked today, however, feel positive that Briand will weather the storm in the chamber of deputies as easily as he did the choppy seas this morning in Havre roads, and will be accorded a vote of confidence by a large majority.

SUSPENDED LIMA POLICE HEAD MAKES AN ARREST

DELPHOS — Harold Boyd, 20, Van Wert, was arrested Thursday by Chief of Police Oelberg of this city. County Detective Roy Bonewitz and O. J. Roush, suspended chief of police of Lima.

Boyd was brought to Delphos on a charge of stealing two rings, valued at \$200, from the home of Adolph Nomina, west of here where he had been employed in electric wiring work.

KING AIDED JAIL BIRD

COPENHAGEN—On the return of King Constantine from Greenland he unwittingly helped an escaped convict. The man had crossed the Arctic sea in a frail canoe and got a cigar and rifle from the king in recognition of his bravery. Landing at Greenland, the king learned of his error.

STOCK SALE FOR FACTORY LAGS

\$12,000 Needed to Assure Shock Absorber Plant

Unless Lima business men subscribe the remaining \$10,000 of the original \$20,000 stock offered for sale by the Pressed Steel Manufacturing Company Waukesha, Wis., the concern will not come to this city. The announcement of the chamber of commerce, Friday.

Several business men immediately subscribed over \$8,000 when the firm first sent representatives to Lima several weeks ago to interest this city in locating the plant here. The chamber of commerce backed the plan and appointed a soliciting committee to raise the remainder of the \$20,000, for the concern to expand and advertise its product. Since that time subscriptions have not been forthcoming, and Ferris brothers, owners of the plant determined Friday they would not locate in Lima unless the remainder of the amount is subscribed immediately. J. Kennard Johnson, manager

of the chamber of commerce, announced.

Circular letters and subscription post cards have been sent out by the chamber of commerce in an endeavor to raise the remaining amount.

The Pressed Steel Manufacturing Company produces shock absorbers for Ford automobiles; steel mouse traps and small hardware.

ST. MARYS POND FROGS TUNE UP IN DECEMBER

ST. MARYS — Frogs about the big reservoir here celebrated the advent of December by staging a vocal chorus that interfered with the slumber of residents nearby.

Solemn assertion that the existence of frog songs thus late in the year isn't a myth is made by George Strobel, clerk-treasurer of Noble-Top and by James Sunderland.

"Without the treacherous help of cathartics"

A simple food which gradually replaces laxatives

HE who can control chronic constipation without the treacherous help of cathartics makes a 'booster' of his patient."

This quotation from a doctor's essay on constipation carries a message of great significance to thousands of men and women.

It is now recognized that cathartics never remove the causes of constipation. Indeed, one physician states that the indiscriminate use of cathartics is probably one of the most frequent causes of constipation.

For many years there has been pressing need for some simple food that would help restore normal conditions. And now scientists have discovered it in the familiar little cake of Fleischmann's Yeast.

First came the startling discovery that Fleischmann's Yeast in itself is a wonderful food, rich in the mysterious water-soluble vitamin. Then it was found that Fleischmann's Yeast builds up the body tissues, keeps the body resistant to disease.

FLEISCHMANN'S YEAST IS A FOOD NOT A MEDICINE

Avoid the use of so-called yeast preparations. Many of these contain only a small amount of yeast—as little as one-tenth of a yeast cake—mixed with drugs or medicines. The familiar tin-foil package with the yellow label is the only form in which you can get Fleischmann's Yeast for Health. Be sure it's Fleischmann's fresh Yeast. Do not be misled by yeast-substitutes.

In addition, because of its freshness (you get it fresh daily) Fleischmann's Yeast helps the intestines in their elimination of waste matter. Fleischmann's Yeast was tested for this purpose in leading medical institutions. Chronic cases of constipation, some even of years' duration, responded.

Fleischmann's Yeast is by its very nature better suited to the stomach and intestines than the ordinary laxatives, and being a food it cannot form a habit.

Eat 2 to 3 cakes of Fleischmann's Yeast a day. Have it on the table at home and on your desk at the office. Eat it plain, spread on bread, or dissolved in milk or fruit juices. You will like its fresh, distinctive flavor and the clean wholesome taste it leaves in your mouth. It is assimilated just like any other food. Only one precaution: if troubled with gas, dissolve yeast first in boiling water. This does not affect the efficacy of the yeast. Place a standing order with your grocer for Fleischmann's Yeast and get it fresh daily.

Send 4 cents in stamps for the interesting booklet, "The New Importance of Yeast in Diet." Address THE FLEISCHMANN COMPANY, 701 Washington St., New York, N. Y.

Ye Greate Astonishments, by Eleanor Hallowell Abbott, is the best Christmas story I have ever read.

*Bethany Clarke,
Editor of The Ladies' Home Journal.*

It is a novelette—the story of a want-ad guest and the quest for a Christmas crinkle.

"Christmas Light," by Ethel Calvert Phillips, is a beautiful story of the first miracle as it was performed by the Baby Jesus in the manger.

And "There was a Boy who Lived on Pudding Lane," by Sarah Addington, is the true account—if only you believe it—of the life and ways of Santa, eldest son of Mr. and Mrs. Claus. Grown-ups and youngsters will love this biography.

Also Zane Grey's serial, "The Call of the Cañon," stories by Albert Payson Terhune and Herbert Quick, and three beautiful Christmas pictures in full color.

On page 118 there are the jolliest Christmas cakes you ever saw—gingerbread postcards, snowballs, a jack-in-the-box, funny Noah's ark animals, and Santa himself with his reindeer on a glassy lake.

Did you ever think of giving little pies? Then page 124 will suggest something new to you.

Everybody wants lots and lots of candy for Christmas—to eat and to give away. The recipes on page 127 are unusual because they make really enough.

And nuts prepared as described on page 121 will give variety to the holiday table.

The women's club or ladies' aid society that wants to raise money for Christmas charities will find a splendid bazaar in Claire Wallis' "Brite and Fair," and the money may be happily spent as described by Edith Barnard Delano's "Christmas in our Town."

FIRE TRUCK WAR RENDS VILLAGE

Spencerville Council, Mayor,
Firemen in Battle

CASE MAY GET INTO COURTS

Mayor Declares He Will Not Sign Purchase Order

SPENCERVILLE — (Special) — This village is rent asunder with dissension, and there is every indication that a court fight, attended by much bitterness, will eventually result.

And all because council has been trying to buy a motor fire lighter.

When bids were opened, the size and demeanor of the crowd on hand

indicated that it might be necessary to wire the Governor, asking that troops be sent out to disperse the assembly, in the interest of life, limb and property.

BATTLE IS STRENUOUS

It is asserted by the oldest inhabitants that nothing like it ever before occurred in this usually peaceful place of habitat. The battle staged when wrathful representatives of opposing political parties went to it at midday on a nearby farm during the heat of the 1920 election wasn't a marker compared with what eventuated in and about city hall when bids presented for the sale of a fire lighter were opened, with council in special session.

The battle raged for three hours and grime was dislodged from tobacco smoked walls by the very force of oratory, for and against. It was the second time council had advertised for bids for a triple combination fire truck. It was the second time bids were offered. And it was likewise the second time five members of council, Shaffer, Nodhardt, Lowry and Miller, had voted to buy the truck, manufactured at Prospect, Ohio. In review, it was the second time Harter and Hahn had voted "No!"

Mayor J. B. Sunderland and members of the fire department stood

adamant with the opposition holding that they could not understand why the truck in question should be purchased at "such an outlandish price."

MAYOR HURLS DEEP

Mayor Sunderland asserts he will not sign a contract ordering the purchase of the truck. The four members of council in favor of the purchase say he will. Village firemen declare they will not use the truck if it is purchased. The quartette of city dads urging the investment has been advised by Lima attorneys that the mayor can be forced to approve the order, but that it will be necessary to take the case into court.

In the meantime, all contestants in the "fire truck war" are holding their entrenchments, watching for a new move on the part of the opposition.

Waynesfield To Play South Hi

South Hi will open their 1921-22 basketball season tonight in their gymnasium against the Waynesfield quintet.

Waynesfield has a fair basketball squad but the team was booked on the idea of being a practice game. South will swing into the start of her real schedule a week from to night when St. Marys brings its basketball team here.

"WINDY" AT CENTER

Winegardner will start at center tonight, with Berger on the bench suffering from minor injuries received in the South-Central football game a week ago.

Captain Hanan and Evans will play the forward positions while Williams and Fanaff will do the defensive work.

Winter League Is Not Paying

SAN FRANCISCO, Calif.—Approximately \$45,000 will be lost by owners of clubs in the new California winter baseball league during its ten week season which closes December 6, according to estimates by officials of the league here. Lack of patronage is given as the reason.

The league is made up of four clubs representing Los Angeles, Vernon, San Francisco and the mission district of San Francisco. Four major league stars, Roger Hornsby, George Isler, Ty Cobb and Harry Heilmann, are pilots of the teams. The other players are from the Pacific Coast ball leagues.

RICHARD STRAUSS, THE VIENNESE FAMOUS COMPOSER AND CONDUCTOR WILL RECORD WITH HIS OWN ORCHESTRA EXCLUSIVELY FOR THE BRUNSWICK. THE MAUS PIANO CO.

RECORD OF 'STUFFY' M'INNIS, GREATEST FEAT IN BASEBALL

"STUFFY" McINNIS, the brilliant first baseman of the Boston Red Sox, made a most remarkable record last season.

Usually, when a player performs some unheard of feat it is heralded all over the states in big headlines.

In many ways the record of McInnis was one of the most extraordinary feats ever performed in the major leagues, yet it has been given only slight consideration.

Playing thru the entire season, McInnis made only one error. Consider all the play that centers around first base. Recall the many difficult throws the first sacker has to

handle. Don't forget the many plays the first baseman must make on ground balls.

Think over all those things and then remember that during the entire season McInnis made only one error; and you will have a fairly good idea of the magnitude of "Stuffy's" performance.

It was the irony of fate that McInnis should have made his only error in the city in which he made his start, Philadelphia. It was also a tough break that caused the official scorer to record the play as an error. It was really a play that involved merely the judgment of the scorer. Generous scoring would have made it an easy matter to have entirely

overlooked the play.

Here is the play that was the only blot on "Stuffy's" great record. Read it over and form your own opinion. No doubt you will express a regret that the scorer decided to give McInnis an error.

The scene was Philadelphia and the date May 30, 1921. The error was recorded on a thrown ball. Jimmy Dykes was on first base, nobody out and the score close. McInnis figured the batter was going to bunt, and went in on the pitch to make a play at second if possible.

The batter missed the ball. Jimmy Dykes,

who had taken a big lead, seemed to be a sure out either at first or second. The moment the batter missed, "Stuffy" ran back to first, watching Catcher Walters all the time. A perfect throw, properly handled by him, would have gotten Dykes a couple of yards. Walters started his throw and then hesitated slightly.

This rather threw McInnis off his stride and he slipped slightly as he neared the bag. When Walters finally threw the ball, he floated it down to first, rather than with his usual speed. A trifle off his balance, McInnis was forced to stretch for the ball and was unable to hold it. That enabled Dykes to get back to first in safety.

'GAS ATTACKS' WIN FOOTBALL GAMES

BY BILLY EVANS

R EPARTEE isn't confined entirely to the ball field. A lot of interesting clashes come up on the gridiron.

Often people say to me after a ball game, "I would have liked to have heard what the players were saying to you about that close decision."

In baseball any clash between player and umpire, or between the players of the two teams, is apparent to the spectators.

Here is a story that was told me by one of the Princeton players, with Keck, the star tackle, as the "goat." Chicago was playing at Princeton. McGuire, the crack tackle of the Chicago club, was making things very interesting for Keck.

After an unusually fierce struggle Cusler, the Chicago end, and Keck were at the bottom of the pile when the others unlimbered themselves. Cusler was on top, and getting to his feet, he grabbed Keck by the shoulders and assisting him to his feet, remarked:

"You big stiff you better start showing something or Roper will pull you out and put Keck on your

pile." It was a sarcastic slip that cut deep. This being a family newspaper it is not possible to quote Keck. But he showed 'em!

COACH OFTEN SARCASTIC Until Illinois beat Ohio State, it had failed to win a single conference game. Naturally Coach Zuppke, who always had his team in front, was not overpleased with the record.

In one of the conference games a player by the name of Riechle, who was expected to be a big help to Illinois, had gummied up several plays and was finally taken out.

The Monday following this game, Zuppke assembled his squad for a conference. He stated the doings by requesting that all the fellows who had taken part in the Saturday game sit on his right and those who did not play, on his left.

After looking over the two sec-

onds show that the quarterback, flying one of the American planes, best for so doing lost his commission.

The two players did not meet again until after the war. It was on the football field in a most important game. The opposing team had its hopes largely in the quarterback. The captain of the other team had never mentioned the occurrence in his teammates. Now before the first play of the game, calling the quarterback by name, he remarked:

"Well, old boy, the Huns made you hear it, and you're in for a tougher time today. The sooner you quit the better for you."

The quarterback carried the ball on the first play, was tackled hard and carried off the field. He had dodged it once more. His team was badly beaten without him to direct the play.

Oh, yes, the collegians do say things to one another, just the same as the professionals.

New Offensive System At O.S.

COLUMBUS—The offensive system to be used this year by the Ohio State University squad will consist mainly of the short pass, which is expected to enhance speed and accuracy as well as general effectiveness of the team, in the opinion of Coach George Triutman.

The proposed system is directly opposite to that which was used last year. Practice, which has already started, will get into full swing within a few days when a number of football players who have been taking a vacation from athletic activities, turn out.

ST. ROSE HI PLAYS SIDNEY TONIGHT

Immaculate Conception Hi of Sidney is sending its representative basketball team to Lima today to play the St. Rose quintet at the St. Rose auditorium tonight.

Since defeating Wapakoneta by a big score a week ago, Coach Bob Baker has shaken up his entire squad and it is possible that some new faces will be seen on the line-up tonight.

Several players at St. Rose are working hard to edge some first string men out of their place and Coach Baker is giving them a chance to show their stuff.

SIDNEY IS FAST

Sidney is rated as having a fast, scrappy squad which is better than their winning team of 1920-21. This team sets its goal yearly to beat the Lima school and rumors have it that tonight the quintet will endeavor to stop Coach Baker's boys before they get their usual comfortable lead.

Plans have been made to remove the ceiling net from the floor and guards have been ordered to place over the lights. This will give the players more of an opportunity to arch their balls and risk long shots.

"MOLLY O" GREATEST COMEDY SINCE "THE KID"

(By ESTHER WAGNER)

MABEL Normand's latest picture, "Molly O," is one of the finest comedies that has ever graced the silver screen. Only an allegorical ending that lies entirely without the precept of the story plot robs it of being the greatest comedy of the year.

The story, written by Mack Sennett, has more "meat" than most comedies. Pathos is the background of comedy. Tears and laughs combine. The blade of satire pricks the bigotry of the poor, it explodes the arrogance of the rich.

This is a Cinderella story. Molly O, the daughter of a washwoman and a street laborer, falls in love with a young physician who occupies a high station in society.

Her father is opposed to the silk-hatted dude. He would have her marry a roughneck with a round-wide haircut, broad shoulders and a steady job.

The dude's associates greet him with sarcasm for his friendly interest in the girl of the slums. The climax of the romance is reached at a masked charity ball when Molly bears the grand march with the doctor. He thinks his partner is

A Tale About Balzac and Rex Ingram

IT'S a known fact that Rex Ingram's production, "The Conquering Power," is a truly worth while production, and patrons of the Sigma, where it is showing, have enjoyed the film to the utmost.

It was over five years ago that Ingram, then a youthful director, vowed to film Balzac's "Eugenie Grandet," the story from which "The Conquering Power" was made.

"Who wrote this wonderful story?" asked the studio manager.

"Balzac," answered young Ingram.

"Hm," mused the manager. "Never heard of him. How much does he want?"

"Nothing," replied the director.

"You see—"

"Never mind, that's enough. We can't take it. I've heard of these 'for nothing' stories before. You never get nothing for nothing, young man," stated the studio manager.

Which is one reason why the story was not filmed before. After his sensational success with "The Four Horsemen," however, Ingram undertook to film the Balzac masterpiece, and its merit has been thoroly attested.

Alice Terry, the leading lady, is now Mrs. Rex Ingram, you know. She is, just recently; about three weeks

ago.

THEATRE DIRECTORY

AT THE SIGMA:

Rex Ingram's second production, "The Conquering Power," is the special attraction today and for the remainder of this week at the Sigma theatre. Alice Terry and Rudolph Valentino are at the head of a superb cast. The story is a visualization of Honore Balzac's "Eugenie Grandet."

AT THE FAUROT:

"The Sheik," appearing again today at the Faurot Opera House, is from the widely read novel by Edith H. Hull and is a splendid starring vehicle for Agnes Ayres and Rudolph Valentino. The sets and photography are especially beautiful.

Diverting short films complete the Faurot's program.

SELZNICK PICTURES

As the pathetic figure of the orphaned Poppy Destin—child of destiny—Miss Talmadge has an ideal role which gives her the chance to run the whole gamut of human emotions as the plot unfolds under the development of Poppy's life.

An added and special attraction to the production is the person of the dashing Eugene O'Brien in the leading role opposite Miss Talmadge, which makes a screen combination of charm and talents hard to beat.

COMING SUNDAY — ELAINE HAMMERSTEIN IN "REMORSELESS LOVE"

AT THE LYRIC:
Norma Talmadge is starred in "Poppy" by Cynthia Stockley. Eugene O'Brien plays opposite, and the two give a thoroughly enjoyable performance. The program at the Lyric also includes added features.

CUTS AND FLASHES:
J. Gordon Edwards has completed the filming of "Nero" in Italy.

Ward Crane will play opposite Irene Castle in her next picture.

Fred Stone has two westerns ready

for release. They are "The Duke of Cherry Butts" and "Billy Jim."

Blythe Daly, daughter of Alain Daly, stage celebrity, supports Ernest Truex in "Little, But Oh My!"

Elaine Hammerstein, an ascendant star in the film firmament. She recently completed "Star Dust," based on Fanny Hurst's story.

AT THE MAJESTIC:
"It Isn't Being Done This Season" starring Miss Corinne Griffith, is the feature attraction today and Saturday at the Majestic theatre. Also added attractions.

"Nothing," replied the director.

"You see—"

"Never mind, that's enough. We can't take it. I've heard of these 'for nothing' stories before. You never get nothing for nothing, young man," stated the studio manager.
